

Herbamedica GROUP

CBD and THC beverage production with push cap system and sachets

Herbamedica Group produces CBD and THC beverages with a **push cap** system and **sachets**. This innovative packaging includes a separate chamber within the cap to store the dry ingredients, which are infused into the bottle when it is twisted. This design caters to the rising demand for beverages enriched with cannabis, vitamins, minerals, and probiotics and offers a wealth of opportunities to both beverage manufacturers and retailers.

The cap's hermetic seal allows it to be sold as part of the bottle or as a standalone refill product. **By keeping the vitamins, CBD and flavors in an airtight cavity, they remain fresh for longer, unaffected by water and light.**

Push Caps System

To enjoy the beverage, **simply twist and pop down** the cap to break the seal and release the ingredients into the water. **A quick shake** of the bottle and you can savour a tastier, more potent drink.

It could not be easier to **fill the cap** .

...

TURN CAP UPSIDE DOWN
AND FILL IT UP ⁽¹⁾

ALIGN LUG WITH LOCKED

Sachets

To use the sachets provided with your refreshment drink, simply follow these steps:

1. Fill a glass or bottle with cold water.
2. Tear open the sachet and pour the contents into the water.
3. Stir or shake the drink to ensure that the powder is fully dissolved.
4. Enjoy your refreshing and tasty drink!

It's important to note that the amount of water you use may vary depending on your personal preference. You can experiment with the ratio of water to sachet until you find the perfect balance of flavour and strength. Additionally, some sachets may contain ingredients that are intended to dissolve slowly over time, so be sure to read the instructions carefully before using them. With a little experimentation and practice, you can create a delicious and refreshing drink that's perfect for any occasion.

- ✓ We will create a product according to your wishes and your logo
- ✓ In production we have a large selection of different flavours
- ✓ Products composed of high-quality and certified raw materials

CBD or THC Water Drinks & Functional Beverages

These patented, protective Push Cap guarantees that our proprietary blend of CBD/THC flavored powder formula, adaptogens, and essential vitamins is delivered at peak potency. Push-cap CBD/THC delivery system allows users to create an all-natural, flavored and infused cannabis beverage onto any bottle of water or beverage you have; just snap, shake and enjoy.

CBD WATER with vitamins 0,25 l Bottle 	Flavours 	Healthy functional 	ORDER
CBD WATER with vitamins 0,25 l Bottle 25mg cannabidiol	Orange Strawberry Cherry Blueberry according to customers' wishes	CBD/THC helps the body maintain homeostasis, and users report that it helps them maintain calm, manage everyday stresses, and ease minor discomforts. CBD/THC drinks can be especially helpful for exercise recovery because they also rehydrate the body.	
THC WATER with vitamins 0,25 l Bottle 10mg THC	Orange Strawberry Cherry Blueberry according to customers' wishes	How much THC or CBD is in each beverage? Usually, THC drinks come in doses of 2mg to 10mg per drink, and some beverages only have CBD so that there is no high associated with consuming the drink. The most popular proportion is having an even amount of THC and CBD or a couple more mg's of CBD to tone down the THC levels.	

We offer our customers an all-in service starting with the idea down to the finished product. We develop, test, analyse and purchase materials and tailor our production to individual wishes. All our customers have to do is supply the design based – your logo on the specifications developed by us and send us the finished print data.

General Information and Comparison of Sachet about THC or CDB Packaging Solutions.
THC or CBD powder is one of the best-selling products in the processed cannabis industry because of its easy to use the feature. It can be added to any drink, stirring and boosting the mind power as we use this kind of packs in our daily lives.
